

PAGA Connectivity (Cell Type) — Descriptive, Not Trajectory

UMAP2

UMAP1

- | | | |
|---|--|---------------------------------------|
| 1. B cell | 12. endothelial cell of lymphatic vessel | 23. non-classical monocyte |
| 2. CD1c-positive myeloid dendritic cell | 13. epithelial cell of lung | 24. pericyte |
| 3. CD4-positive, alpha-beta T cell | 14. fibroblast of lung | 25. plasma cell |
| 4. CD8-positive, alpha-beta T cell | 15. macrophage | 26. plasmacytoid dendritic cell |
| 5. alveolar macrophage | 16. malignant cell | 27. pulmonary alveolar type 1 cell |
| 6. bronchus fibroblast of lung | 17. mast cell | 28. pulmonary alveolar type 2 cell |
| 7. capillary endothelial cell | 18. mesothelial cell | 29. pulmonary artery endothelial cell |
| 8. classical monocyte | 19. multiciliated epithelial cell | 30. regulatory T cell |
| 9. club cell | 20. myeloid cell | 31. smooth muscle cell |
| 10. conventional dendritic cell | 21. natural killer cell | 32. stromal cell |
| 11. dendritic cell | 22. neutrophil | 33. vein endothelial cell |
